

# North Fawcett 7 Property SW-07-065-01-W5

**Description:** This 160 acre site features mixedwood forest dominated by spruce, with pine and tamarack occurring in select locations throughout. A heterogeneous landscape of dry upland areas and low-lying wetlands are unique to this site. A large access road leads directly to a well in the middle of the property. Moose, deer and black bear are common here, as are snowshoe hares and least chipmunks.

**Partners:** Alberta Conservation Association, Alberta Sustainable Resource Development, Suncor Energy Foundation

**Special Restrictions:** Day use only. No open fires. Foot access only.
