

Leavitt Property

Portion of SW-19-37-5-W5

Description: This 125 acre property has managed uplands for nesting cover and winter forage for ungulates, which are mostly mule deer and white-tailed deer. The groundwater springs present in the Raven River are a key spawning area for brown trout and the habitat is protected and managed to maintain or enhance fish populations.

Partners: Alberta Conservation Association, Trout Unlimited

Special Restrictions: Day use only. No open fires. Foot access only.
